

ENGAGE FOR SUCCESS

We are a growing dynamic, voluntary movement promoting employee engagement as a better way to work that benefits individual employees, teams and whole organisations.

What we believe

- Everyone working in the UK should want, and be able to give, their best at work. Every day is then a great day, and UK workplaces are thriving, growing and developing through the commitment, energy and creativity of the people that work in them
- Successful organisations will be those that free the potential of people within them.

What we do

- We connect like-minded people, communities, experts and leaders
- We drive thinking about employee engagement and how it enhances performance and productivity, by providing evidence, case studies and points of view
- We support people in the workplace with practical tools and ideas.

What we want

- To grow awareness about the power and potential of employee engagement
- To encourage people to think about it
- To provoke them to take action wherever they work.

How we do it

- By being an inspirational force for change
- Making the movement inclusive, practical and accessible
- Using the website as a learning system with practical tool and ideas, as well as case studies and blogs to inspire people.

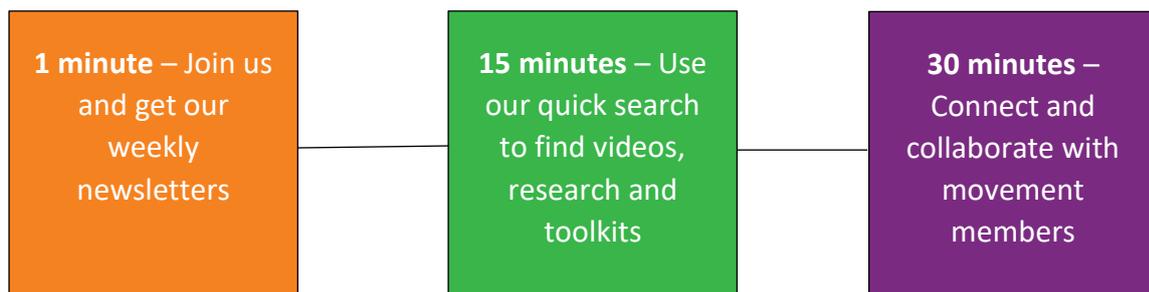

Who we are

Engage for Success consists of a **Core Team** of volunteers and secondees. Our **Board** looks after the governance of Engage for Success – i.e. how it is organised, funded and structured. Our **thinkers and doers** include practitioners, academics, researchers, consultants, service providers, representatives from membership organisations and professional bodies, all with extensive experience in the theory and practice of employee engagement.

We've formed an alliance with **The Chartered Institute of Personnel and Development (CIPD)** to elevate the importance of employee engagement.
